PHOTO FIXES FOR REAL PEOPLE

EDITING BASICS

- ✘ Destructive vs Non-destructive Editing
 - + Simple: Save as PSD
 - + Simple: Make a copy of the photo (Ctrl+J)
 - + Advanced: Masks (Easier in PSE9)
- ✘ Save often
- ✘ Export your final copy and keep the original + your PSD

COMMON FIXES

- ✘ Get rid of red eyes
- ✘ Clean away food from your baby's face
- ✘ Turn your overcast skies blue
- ✘ Create a perfect group shot - where everyone is smiling & has their eyes open!

GET RID OF RED EYES

- ✘ Zoom in to your eye
 - + Z for zoom
 - + Click and drag over the eye
- ✘ Simply choose the Red Eye tool (Press Y)
- ✘ Click and drag over the eye
- or
- ✘ Click on the pupil

TURN YOUR OVERCAST SKIES BLUE

- ✘ Select the Smart Brush tool (f)
- ✘ Select blue skies from the drop down menu
- ✘ Press] to increase the size of your brush
- ✘ Paint over your sky
- ✘ Use the - brush to remove trees etc

CLEAN AWAY FOOD FROM YOUR BABY'S FACE

- ✘ Select the spot healing tool (J)
- ✘ Choose a brush size. A brush that is slightly larger than the area you want to fix works best so that you can cover the entire area with one click
- ✘ Click on the spot/blemish you want to remove

CREATE A PERFECT GROUP SHOT

- ✘ Open up all of your group photos
- ✘ File New/Photomerge Group Shot
- ✘ Drag your best photo onto the right hand pane
- ✘ Click on the photo with the best face for the one you need to replace

CREATE A PERFECT GROUP SHOT

- ✘ Zoom in on the face to replace
- ✘ Draw over the new face with the pencil tool
- ✘ Press done
- ✘ You can then edit the new layer in Photoshop Elements until you are happy with it!
